Sir:

Pursuant to 37 C.F.R. §1.97, the art identified on the attached form PTO/SB/08A and other matters discussed below may be helpful to the Patent Office in its examination of the application identified above.

A copy of each of the identified non-U.S. patent documents is enclosed herewith for the Examiner's consideration.

The documents cited in the corresponding International Search Report for PCT/EP2004/051525 are also listed in the accompanying Form PTO/SB/08A.

Enclosed is a copy of the International Search Report in PCT/EP2004/051525 of which the above-captioned, instant U.S. patent application is a national stage. The search report cites five (5) documents, and the five (5) documents are listed on the attached Form

Serial No. PCT/EP2004/051525 - - - 2

PTO/SB/08A. All are in English.

The publication PCT/EP2004/051525, of which the above-captioned instant U.S. patent application is a national stage, claims priority of EP 03 01 6295.2 and EP 03 01 6296.0. Enclosed is a copy of the German language European Search Report of each of the priority European applications. The documents cited in the two European Search Reports are listed on the attached Form PTO/SB/08A.

The German language DE 299 05 089 U appears to disclose patient support tables with headrest sections.

The Patent and Trademark Office Examiner is requested to review the art and determine the extent of the materiality of the disclosures thereof with respect to the patentability of the subject invention. It is expected that the Patent and Trademark Office Examiner will independently conduct a complete search for relevant prior art.

No inference should be drawn and no representation is made or intended: (a) that a search has been made, or if made, was complete; (b) that the art on the attached list presents a comprehensive investigation of the prior art; or (c) that no more pertinent art than that listed is in existence. [See 37 C.F.R. §1.97(g)]

Citation of any art herein is not to be construed as an admission: (a) that the art disclosure is, or is considered to be, necessarily within the invention field of endeavor, pertinent to the instant invention, or equivalent to the instant invention; (b) that the art disclosure is, or is considered to be, necessarily prior in time to a particular date which may be relevant in the instant patent application; (c) that the art disclosure is, or is considered to be, material to patentability as defined in 37 C.F.R. §1.56(b); and/or (d) that the art disclosure is otherwise

necessarily prior art with respect to the instant invention and application. [See 37 C.F.R. §1.97(g).]

No inference should be drawn that the discussion of any art herein is a discussion of each and every feature disclosed therein.

Also, there is reserved the right to later set forth how the instant invention is distinguished over the disclosures of any document or other art, including the disclosures of the art cited herein, that may be cited by the Examiner in rejecting a claim in the instant patent application.

Respectfully submitted,

WOOD, PHILLIPS, KATZ, CLARK & MORTIMER
